# Basic Redux

Understanding Redux

```
Action  →  Reducer  →  Store
  ↑                      │
dispatch              subscribe
  │                      ↓
         View  ←─────────
```
